

Altura Advisor

PROFESSIONAL
SERVICES

A Single Point of Contact For Voice and Video Collaboration Support

We review and make specific recommendations to enterprise customers that enhance their QoS voice and video system integration. This includes pre-sale and implementation support for the following:

- Avaya Voice
- Wireless Networks
- Cisco Network Switching
- Extreme Network Switching

The QoS consulting engagement will assess, and recommend:

- The proper professional deployment of QoS in your communication and video network.
- The latest release levels, network settings, and best practices.
- Providing the ability to maximize system uptime and reduce deployment time line.

Altura Advisor is a QoS value-added professional services offering that provides best in class services to businesses nationwide. We enable enterprises to become more productive and efficient while saving you time and resources. Let Altura handle your day-to-day coordination, management, administration, and support!
