SERVICES

Altura Advantage Maintenance

Join thousands of satisfied customers that already benefit from Altura's Advantage Maintenance support services. Take the risk out of system management with our 24/7 remote monitoring, 4-hour emergency response time, and proactive maintenance.

As an Avaya Diamond Partner, Altura reduces your overall operational costs while taking charge of your system's health. Our internal procedures streamline the process for responding to service requests, which enable quicker responses, reducing system downtime.

We take pride in understanding our customers' needs and delivering service that's second to none. Let Altura Advantage simplify the management and maintenance of your unified communications.

Immediate Benefits Include:

- Alarm monitoring and management of critical servers and applications
- System-generated SMS and email notifications through the Altura Edge Portal
- Incident management
- Expedited emergency response
- On-site labor for software and hardware support
- 24/7 help desk support
- Preferred MAC (moves, adds, and changes) service pricing
- Convergence services for voice, video, wireless, and data
